

DATA PRACTICES POLICY

Policy Number: 2008-01

Council Adopted: June 2, 2008

I. Introduction.

These procedures are adopted to comply with the requirements of the Minnesota Data Practices Act (the “Act”), specifically Minn. Stat. Sec. 13.03, Subd. 2 and 13.05, Subd. 5 and 8.

II. Responsible Authority.

The person who is the responsible authority for compliance with the Act shall be appointed by Resolution of the City Council. The responsible authority may designate certain other City employees to assist in complying with the Act. These designees are listed on attached Exhibit 1.

III. Access to Public Data.

All information maintained by the City is public unless there is a specific statutory designation that gives it a different classification. Categories of classification are as follows:

Data on Individuals (Natural Persons)	Data Not on Individuals	Degree of Accessibility
Public	Public	Accessible to anyone
Private	Nonpublic	Accessible to data subjects and to government officials whose duties reasonably require access
Confidential	Protected Nonpublic	Accessible only to government officials whose duties reasonably require access

The City General Records Retention Schedule (adopted Minnesota General Records Retention Schedule) lists data series maintained by the City and their classifications.

- A. People Entitled to Access.** Any person has the right to inspect and copy public data. The person also has the right to have an explanation of the meaning of the data. The person does not need to state his or her name or give the reason for the request.
- B. Form of Request.** The request for public data must be submitted in writing on a form supplied by the City of Anoka (see Exhibit 9).
- C. Time Limits.**

Requests. Requests will be received and processed only during normal business hours.

Response. The response must be immediate, if possible, or within 5 working days if an immediate response is not possible. The City may have an additional 5 working

days to respond if it notifies the requesting person that it cannot comply within 5 days. If the request will take a substantial amount of time to compile, the City must notify the requestor of an estimated time that the information will be available. Such time limit must be reasonable.

- D. Fees.** Fees may be charged only if the requesting person asks for a copy or electronic transmittal of the data. Fees will be charged for requests less than 100 pages in length according to the City's standard photocopying policy in place at the time of the request, unless significant time is required. In that case, the fee will include the actual cost of searching for, retrieving, copying, mailing, or electronically transmitting the data. The fee may not include time necessary to separate public from non-public data.

The responsible authority may also charge an additional fee if the copies have commercial value and are a substantial and discrete portion of a formula, compilation, program, process, or system developed with significant expenditure of public funds. This additional fee must relate to the actual development costs of the information.

IV. Access to Data on Individuals.

Information about individual people is classified by law as public, private, or confidential. A list of the private and confidential information maintained by the City is contained in Appendix A.

A. People Entitled to Access.

- ◆ Public information about an individual may be shown or given to anyone.
- ◆ Private information about an individual may be shown or given to:
 - The individual, but only once every six months, unless a dispute has arisen or additional data has been collected.
 - A person who has been given access by the express written consent of the data subject. This consent must be on the form attached as Exhibit 3, or a form reasonably similar.
 - People who are authorized access by the federal, state, or local law or court order.
 - People about whom the individual was advised at the time the data was collected. The identity of those people must be part of the Tennessee warning described below.
 - People within the City staff, the City Council, and outside agents (such as attorneys) whose work assignments or responsibilities reasonably require access.

- ◆ Confidential information may not be given to anyone, including the subject of the data, but may be shown or given to:
 - People who are authorized access by federal, state, or local law or court order.
 - People within the City staff, the City Council, and outside agents (such as attorneys) whose work assignments or responsibilities reasonably require access.

B. Form of Request. Any individual may request, which must be in writing, on a form supplied by the City (Exhibit 9), whether the City has stored data about that individual and whether the data is classified as public, private, or confidential.

All requests to see or copy private or confidential information must be in writing, on a form supplied by the City. An Information Disclosure Request, attached as Exhibit 4, must be completed to document who requests and who receives this information. The responsible authority or designee must complete the relevant portions of the form.

C. Identification of Requesting Party. The responsible authority or designee must verify the identity of the requesting party, of data not classified as public, as a person entitled to access. This can be through personal knowledge, presentation of written identification, comparison of the data subject's signature on a consent form with the person's signature in City records, or other reasonable means.

D. Time Limits.

- ◆ Requests. Requests will be received and processed only during normal business hours.
- ◆ Response. The response must be immediate, if possible, or within 5 working days if an immediate response is not possible. The City may have an additional 5 working days to respond if it notifies the requesting person that it cannot comply within 5 days. If the request will take a substantial amount of time to compile, the City must notify the requestor of an estimated time that the information will be available. Such time limit must be reasonable.

E. Fees. Fees maybe charged in the same manner as for public information.

F. Summary Data. Summary data is statistical records and reports derived from data on individuals but which does not identify an individual by name or any other characteristic that could uniquely identify an individual. Summary data derived from private or confidential data is public. The responsible authority or designee will prepare summary data upon request, if the request is in writing and the requesting party pays for the cost of preparation. The responsible authority or designee must notify the requesting party about the estimated costs of preparing and supplying the summary data within 10 days of receiving the request. Following receipt of the costs,

the summary data shall be prepared and supplied to the requestor within 10 days after receiving payment. If the summary data cannot be prepared within 10 days, the responsible authority must notify the requester of the anticipated time schedule and the reasons for the delay. Summary data may be prepared by “blacking out” personal identifiers, cutting out portions of the records that contain personal identifiers, programming computers to delete personal identifiers, or other reasonable means.

The responsible authority may ask an outside agency or person to prepare the summary data if (1) the specific purpose is given in writing, (2) the agency or person agrees not to disclose the private or confidential data, and (3) the responsible authority determines that access by this outside agency or person will not compromise the privacy of the private or confidential data. The responsible authority may use the form attached as Exhibit 5.

G. Juvenile Records. The following applies to *private* (not confidential) data about people under the age of 18.

- ◆ **Parental Access.** In addition to the people listed above who may have access to private data, a parent may have access to private information about a juvenile data subject. “Parent” means the parent or guardian of a juvenile data subject, or individual acting as a parent or guardian in the absence of a parent or guardian. The parent is presumed to have this right unless the responsible authority or designee has been given evidence that there is a state law, court order, or other legally binding document which prohibits this right.
- ◆ **Notice to Juvenile.** Before requesting private data from juveniles, city personnel must notify the juveniles that they may request that the information not be given to their parent(s). This notice should be in the form attached as Exhibit 6.
- ◆ **Denial of Parental Access.** The responsible authority or designee may deny parental access to private data when the juvenile requests this denial and the responsible authority or designee determines that withholding the data would be in the best interest of the juvenile. The request from the juvenile must be in writing stating the reasons for the request. In determining the best interest of the juvenile, the responsible authority or designee will consider:
 - Whether the juvenile is of sufficient age and maturity to explain the reasons and understand the consequences,
 - Whether denying access may protect the juvenile from physical or emotional harm,
 - Whether there is reasonable grounds to support the juvenile’s reasons, and
 - Whether the data concerns medical, dental, or other health services

provided under Minnesota Statutes Sections § 144.341 to 144.347. If so, the data may be released only if failure to inform the parent would seriously jeopardize the health of the minor.

The responsible authority or designee may also deny parental access without a request from the juvenile under Minnesota Statutes Section § 144.335.

V. Denial of Access.

If the responsible authority or designee determines that the requested data is not accessible to the requesting party, the responsible authority or designee must inform the requesting party orally at the time of the request or in writing as soon as possible thereafter. The responsible authority or designee must give the specific legal authority, including statutory section, for withholding the data. The responsible authority or designee must place an oral denial in writing upon request. This must also include the specific legal authority for the denial.

VI. Collection of Data on Individuals.

The collection and storage of information about individuals will be limited to that necessary for the administration and management of programs specifically authorized by the state legislature, city council, or federal government.

When an individual is asked to supply private or confidential information about the individual, the City employee requesting the information must give the individual a *Tennesen* warning. This warning must contain the following:

- ◆ the purpose and intended use of the requested data,
- ◆ whether the individual may refuse or is legally required to supply the requested data,
- ◆ any known consequences from supplying or refusing to supply the information, and
- ◆ the identity of other persons or entities authorized by state or federal law to receive the data.

A *Tennesen* warning is not required when an individual is requested to supply investigative data to a law enforcement officer.

A *Tennesen* warning may be on a separate form or may be incorporated into the form that requests the private or confidential data. See attached Exhibit 7.

VII. Challenge to Data Accuracy.

An individual who is the subject of public or private data may contest the accuracy or completeness of that data maintained by the City. The individual must notify the City's responsible authority in writing describing the nature of the disagreement. Within 30 days, the responsible authority or designee must respond and either (1) correct the data found to be inaccurate or incomplete and attempt to notify past recipients of inaccurate or incomplete data, including recipients named by the

individual, or (2) notify the individual that the authority believes the data to be correct.

An individual who is dissatisfied with the responsible authority's action may appeal to the Commissioner of the Minnesota Department of Administration, using the contested case procedures under Minnesota Statutes Chapter 14. The responsible authority will correct any data if so ordered by the Commissioner.

VIII. Data Protection.

A. Accuracy and Currency of Data.

- ◆ All employees will be requested, and given appropriate forms, to provide updated personal information to the appropriate supervisor, City Clerk, or Finance Director, which is necessary for tax, insurance, emergency notification, and other personnel purposes. Other people who provide private or confidential information will also be encouraged to provide updated information when appropriate.
- ◆ Department heads should periodically review forms used to collect data on individuals to delete items that are not necessary and to clarify items that may be ambiguous.
- ◆ All records must be disposed of according to the City's records retention schedule.

B. Data Safeguards.

- ◆ Private and confidential information will be stored in files or databases that are not readily accessible to individuals who do not have authorized access and which will be secured during hours when the offices are closed.
- ◆ Private and confidential data must be kept only in City offices, except when necessary for City business.
- ◆ Only those employees whose job responsibilities require them to have access will be allowed access to files and records that contain private or confidential information. These employees will be instructed to:
 - not discuss, disclose, or otherwise release private or confidential data to City employees whose job responsibilities do not require access to the data,
 - not leave private or confidential data where non-authorized individuals might see it, and
 - shred private or confidential data before discarding.
- ◆ When a contract with an outside party requires access to private or

confidential information, the contracting party will be required to use and disseminate the information consistent with the Act. The City may include in a written contract the language contained in Exhibit 8.
